

How to view the Election Results

5/31/07

Note: You must have a Java Plug-in to view the results.

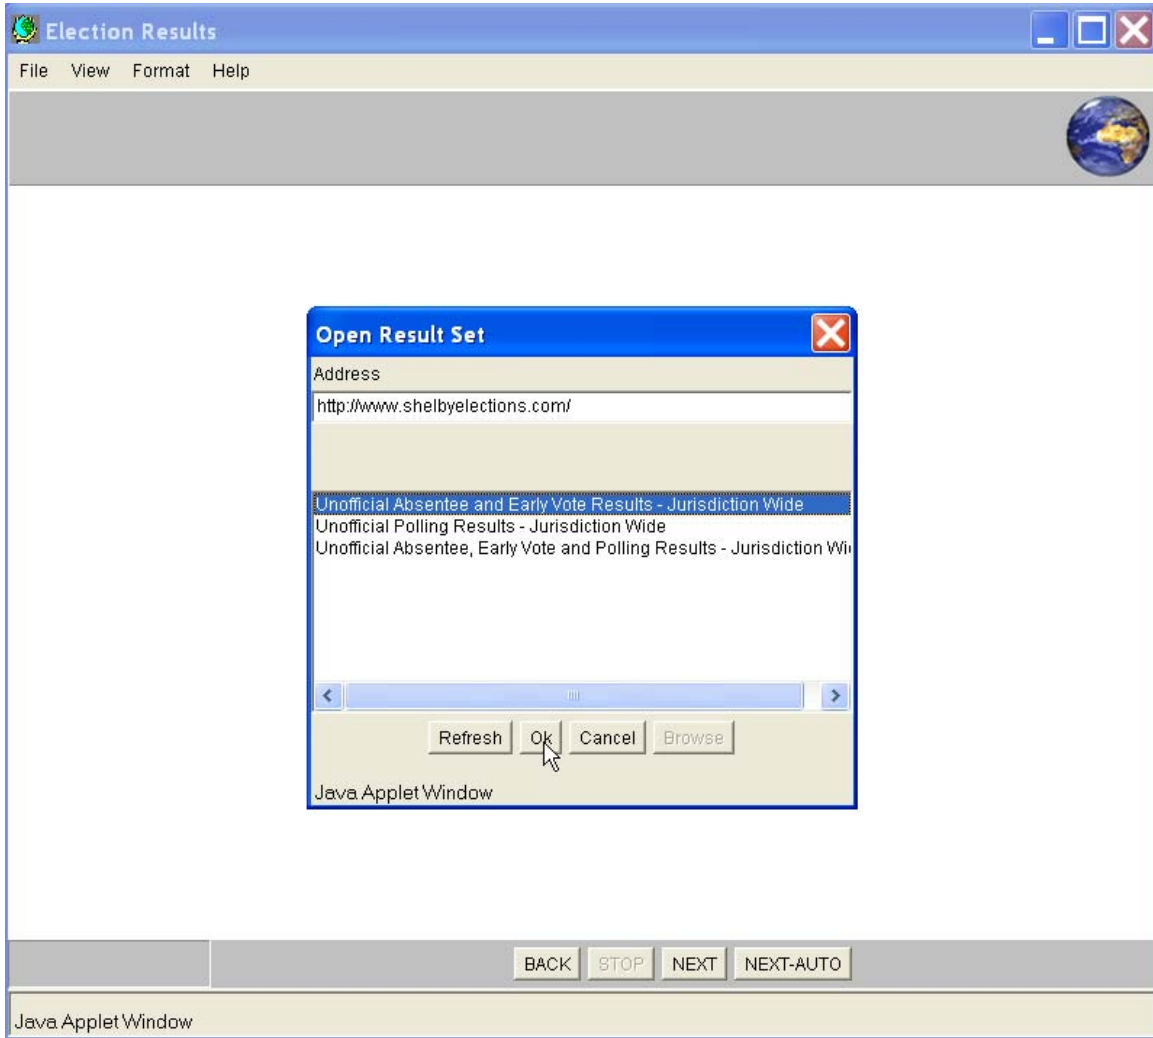

Instructions: Follow the steps below to view election results.

In the "Open Result Set" window, Click on the "Refresh" button"

How to view the Election Results 5/31/07

2. Then select the desired "**Election Result**" from the list below the "Address" field and Click the OK button.

4. Check your task bar for the  symbol if the results don't automatically appear.

Note: If a red "X" appears instead of the results, you must obtain a Java Plug-in for your browser at <http://www.java.com/en/download/index.jsp>.
